## Subject: Provision of in-service training on "Marketing & Sales" to BSNL officers/officials - regarding

It is to intimate that during the recently held review meeting by Hon'ble MOC&IT in DOT on the issue of revival and revitalizing of BSNL & MTNL, following actionable point emerged: "Special measures should be taken for the in-service training of the staff to sharpen marketing and sales skill"

As is generally perceived, out of our core strengths, Marketing & Sales is perhaps the weakest segment. Though training on marketing & sales is available to our staff on regular basis, we need to appreciate that the very dynamics of this area makes it imperative to have such trainings repeatedly. Accordingly, keeping in view the impetus given on special measures to improve the marketing & sales skill of the staff, a special initiative is needed to enhance the skill of our employees on this segment.

A comprehensive short term course module **for training of non-executives** in this area has been prepared by our apex centre BRBRAITT, Jabalpur based on the suggestions received from different verticals. (Annexure)

The course is of three days duration and that can be customized based on the need and requirement of the each field unit. This training, being the <u>focus area for the front line</u> <u>staff of BSNL dealing with our customers at various stages of their normal operation</u>, is crucial for staff working for sales and marketing of BSNL services and dealing with the customers. Further, as the tariff is being revised periodically and promotional schemes are being introduced from time to time, this training needs to be imparted at regular intervals for updation of staff.

The mode of imparting this training shall be preferably Field Training Program arranged at various SSAs by the identified experts from the respective SSA under the supervision of the respective RTTCs. Some pilot programme shall also be conducted at field units, by faculties of training centers. The course content for this training will be available in our training centers and the necessary coordination/guidance shall be extended by the faculties of the respective training center in implementation of this training program at SSA level. BRBRAITT Jabalpur will be the nodal reference center for delivery of this special training programme.

The services of "Associate Faculties" identified in the SSA level may also be utilized for imparting this training. The details regarding pooling of Associate Faculty and remuneration to be paid to such Associate Faculty is categorised in this office letter No.23-10/2001-Trg dated 10<sup>th</sup> February 2009 under the heading "Field Training in the Work-Setting. (Available in Intranet)

To make this training more effective and fruitful, it is requested that the circle training coordinator shall be asked to identify and nominate the name of the officials who are dealing with customers and associated with Project Vijay/Udaan etc and intimate the same to the concerned training center, who in turn will plan the trainings in coordination with the circle/SSAs.

It is accordingly requested that suitable action on the above may kindly be taken immediately and the details of staff so trained on this initiative may be entered progressively in the CTMS training portal so that proper monitoring is affected and a comprehensive report is submitted to the management. Should there be any issues in their implementations, this office would be pleased to be contacted back.
